PRISM Hybrid Vision

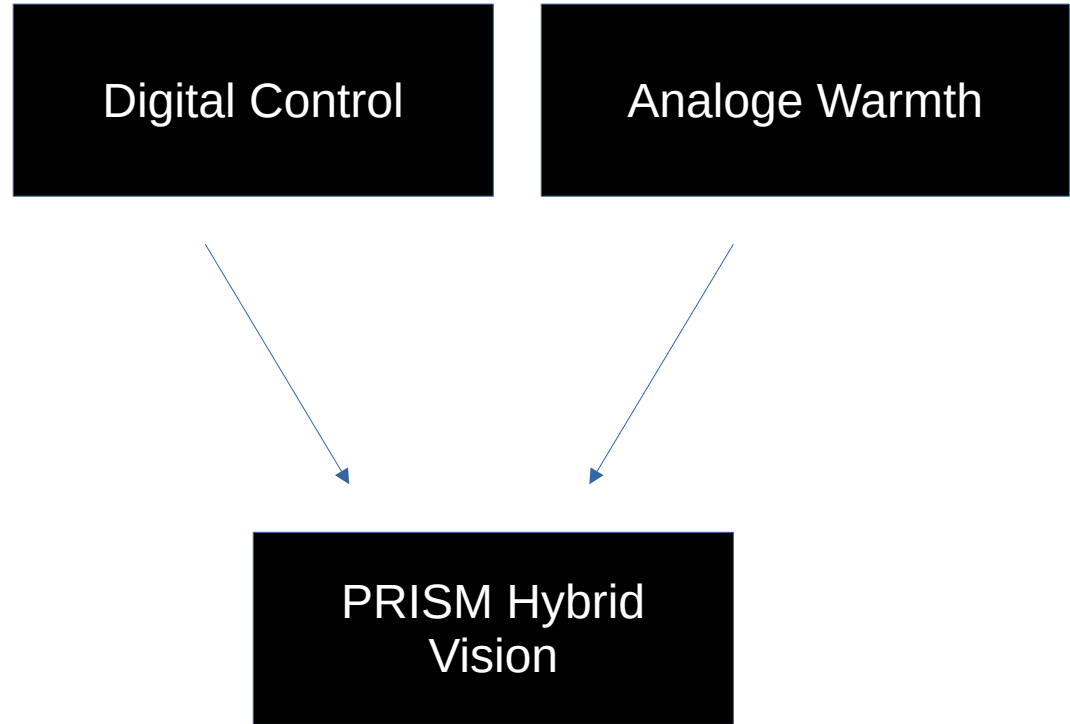

A Hybrid Analog-Digital Recording Console

8/11/26

Lead Engineer: Keegan

Studio's don't need to choose!

- Existing consoles force you to choose between digital control and analog warmth, the PRISM console delivers both.

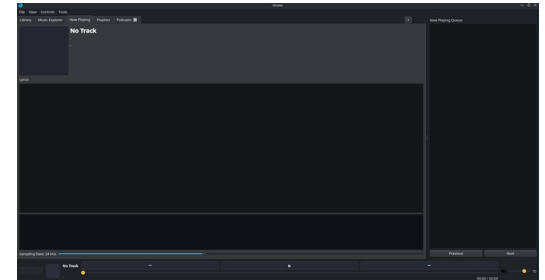

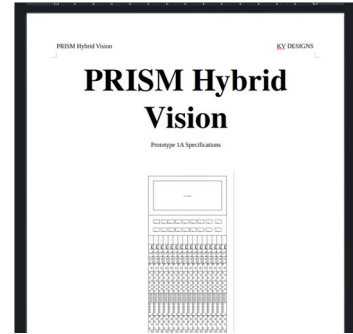

Built from the ground up

- I'm Keegan; a 16 year old audio engineer, hardware-software designer, and founder of KV Designs.

Proof of Work

- **Complete Prototype specification document**
- **Custom modular interconnect standard (uAMX)**
- **Schematics, and CAD models finished**
- **Shipped prior projects: Groov Music Player, Linux music player (custom mp3 player).**

The Solution

- Hybrid Paths: No digital compromise on tone; true analog paths
- Switchable Preamp and output character: OLD/OLD-NEW/NEW modes let one channel emulate different brands of sound.
- Dual Compressor Chan: Opto + VCA Compressors per channel for the most control.
- Full digital Recall & Automation: Every setting saved from your DAW.
- Modular uAMX Architecture: Swap or upgrade modules without replacing the console.
- Immersive Panning: Native Dolby Atmos 9.2.6 output with real time spatial panning.

What's Already Built

General Specifications

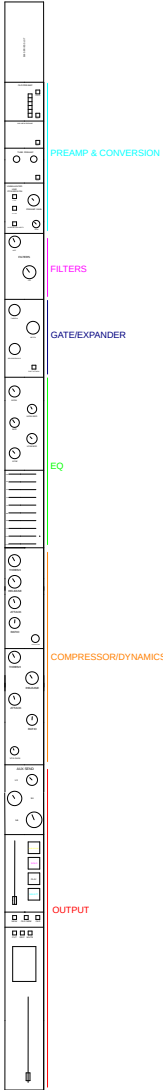

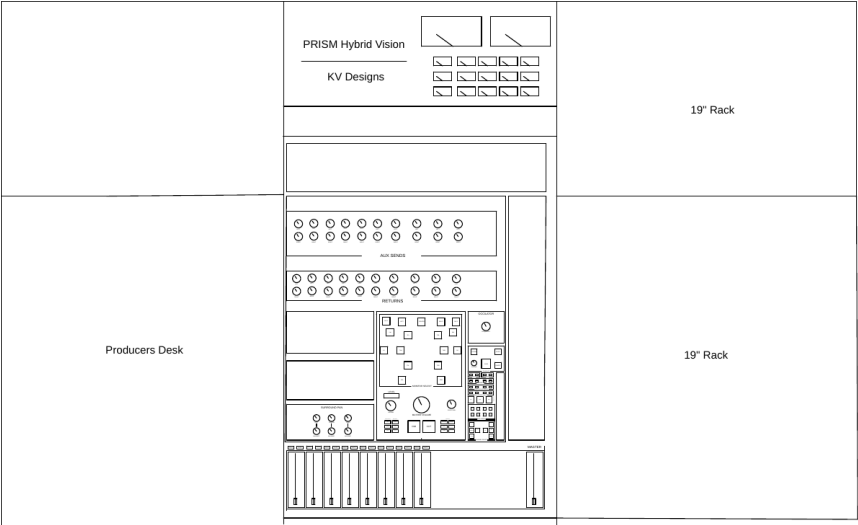

Specification	Target
Input Channels	48 (Expandable)
Mic Preamps	48
Line inputs	48
Stereo Returns	16
AUX Sends	16
Sub-Groups	8
Outputs	Stereo + Monitor
Sample Rates	44.1-192 kHz
Bit Depth	48-24 Bit
Digital Interface	Optical + USB

PRISM Hybrid Vision

KV DESIGNS

Automation	Full Recall
Faders	100 mm Motorized
-----	-----

Project Roadmap

- Schematics
- Documentation
- Sponsorships
- Prototype
- Testing
- Revising
- Partnerships
- Manufacturing and Production

Partnership Opportunities

Component & fab Support

- Donated or Discounted Parts (IC's, Connectors, PCB machines).

Funding Support

- Direct financial sponsorship for prototyping.
- Funding support at any level is appreciated.

Engineering Mentorship

- Access to experienced engineers.

Manufacturing Partnership

- For companies positioned to eventually help produce at scale, once prototyping is finished.

In Return...

Brand Placement

- Your logo or name will be featured on the PRISM console, documentation, and on the KV Designs Website.

Public Credit

- Named as a partner/sponsor in the spec doc, repo, and any demo material.

Early Access

- First look at working prototypes, and input on features that affect your use case.

Other

- For sponsors with sizable impact, you may get \$20,000 in profits.

Positioning

	Analog Character	Digital Recall	Full Automation	Modular Expansion
Vintage Analog Consoles				
Fully Digital Consoles				Limited
Some Hybrid Consoles	Partial		Partial	
PRISM Hybrid Vision
